Dear Hiring Manager,

I am a Senior Technical Program Manager and Advanced Certified Scrum Master with deep experience leading enterprise programs across globally distributed teams. My background includes Azure cloud modernization, multi-team Agile delivery, and large-scale cross-functional execution.

I align executives, stakeholders, and engineering teams around clear goals. I build high-performing teams, remove impediments quickly, and keep programs moving with steady communication and strong governance. My work improves operations, strengthens technical capabilities, and delivers measurable business value.

I bring hands-on experience with Azure DevOps, Power BI, MS Project, and modern Agile practices. I manage budgets, risks, and timelines with discipline and transparency. I work well in complex environments and adapt quickly when priorities shift.

I welcome the opportunity to bring my program leadership, technical fluency, and delivery experience to your organization. Thank you for your time and consideration. I look forward to the possibility of speaking further.

Sincerely,
Steve Shapiro
